

Change of Title Settlement

A Change of Title service involves updating or amending the information recorded on a property's Certificate of Title in Western Australia. This is often required due to marriage, divorce, a legal name change, or correcting an error. It may also involve updating tenancy details.

What the Process Typically Includes:

- Document Preparation and Submission

We help you complete and lodge all forms required by Landgate to update your Certificate of Title, ensuring it reflects accurate and current information.

- Guidance and Support

Our team walks you through the entire process - from paperwork to submission - so you're supported at every step.

- Legal Compliance

We ensure all updates meet legal requirements, helping you avoid issues related to incorrect or outdated title information.

Whether you've recently changed your name or need to update tenancy details, keeping your title accurate is important. At Byford Settlements, we're here to make the process simple, respectful, and stress-free.

Our team brings experience, care, and professionalism to every title update. We'll ensure all documents are handled with precision and submitted promptly, giving you peace of mind that nothing is overlooked.
